

## **Maintenance work on the M11/A120/A11 – traffic management bulletin**

Monday 21 August to Sunday 27 August 2017.

### ***Progress overview***

**We will not be undertaking any planned works between Friday 25 and Monday 28 August, because of the bank holiday weekend and the elevated traffic levels during this period.**

Resurfacing work on the M11 northbound between junctions 7 (Harlow) and 8 (A120) started this week and has progressed well. This phase of work will continue up to and including Sunday 20 August.

Elsewhere, surveying work on the M11 northbound junction 13 exit slip road is ongoing and will be complete on Friday morning.

From Monday 21 August, we will be starting work on the M11 southbound between junctions 10 (Duxford) and 8 (A120). This work will include minor resurfacing, sealing of cracked carriageway sections and the renewal of road markings.

All work is being carried out overnight between 8pm and 6am, when traffic flows are lowest to minimise the impact on road users. Road closures are required to complete the work safely and diversion routes will be fully signed using temporary yellow and black signage.

The diversion route will direct road users via the A505 towards Royston, the A10 southbound towards Standon, and the A120 eastbound towards Bishop's Stortford and M11 junction 8.

This is a long diversion route, and we advise road users to allow an additional 45 minutes travelling time when planning their journeys in this area. Unfortunately, there are no shorter diversion routes available which are suitable for motorway traffic and the nature of the work means that the M11 needs to be closed fully to complete the work safely.

Details of our planned road closures and diversions can be found on the following page.
